

## Pice And Location Confirmation For Garri and Beans

The main source of garri supply is Agbor and Ekpoma Delta state.

Transportaion system for those goods is usually jointly done by the traders, to shudder the cost of an entitre vehicle. Because a single cabster is about 45,000 to 50,000 or more. Most importantly garri is at a lower cost now because of the season. A bage now ranges from 8,000 to 11,000 depends on the business relationships and usually sold here from 15,000 and above.

The beans is a seasonal goods from their primary sources, which is arround September to December, this is the time dealers gets in bulk for a reasonable cost and after purchase dealer now device how to distributes. As for price it can't be ascertain now until is time, except for those who already make booking for particular amounts of Beans purchase with farmers.

Areas of my concentration are Mashegu in Kadunna state and Niger state and I couldn't have an idea of purchase and supply.

Sorry these all I could get, so far most of my contact really don't do the bulk we are trying to do.
